

### ③ Reduce Tuition

We believe financial aid should provide more scholarships and coverage. The school needs to lower tuition.

### 5] Promote More Social Activities

- We recognize there is a need for our campus to have more units

- To have people build better relationships and have resources to people in need

### 6. More Sections for classes

- More teachers, more classes so everyone is on their Roundups and Grad on time.

### ⑦ Reduce extra material costs

We demand more supplies given by SJSU for free. Students already pay high tuition and on top having to pay for textbooks and materials. SJSU needs to open another store where students can buy cheap supplies.

### ⑧ Create Private Shuttles for commuters

We demand that there be a private shuttle for commuters of SJSU. The VTA Rapid bus 800 bus that transports commuters to Bart is shared with the general public, which means you have to walk past unsecured locations. So there would be a huge improvement for commuter students if there were to be a ~~public~~ private shuttle that picks students up near campus and drops them off at the bart station. VTA services and SJSU can work together to make this happen.
