

# Thematic Analysis - Political Manipulation

The theme of political manipulation demonstrates the extent to which totalitarian regimes use language, propaganda and power to control their citizens.

By limiting vocabulary and changing the meaning of words through new speech, the Oceania government was able to restrict the minds of its citizens and make it difficult for them to challenge the regime.

Through linguistic manipulation, the party was able to eliminate concepts such as freedom, rebellion, and individuality.

Propaganda is another important tool utilized by the party to distort reality, rewrite history, and constantly remind citizens of their absolute authority.

By controlling the information provided to the public, the party is able to shape perceptions, consolidate its legitimacy and foster loyalty among its citizens.
